Essilor, Crizal, Airwear, E-SPF and the 25 E-SPF design are registered trademarks and Crizal Kids UV is a trademark of Essilor International and/or its subsidiaries in the United States and in other countries. E-SPF is a global index developed by Essilor, endorsed by independent third parties, measuring the lens' UV protection excluding direct eye exposure from around the lens. E-SPF of 25 means the wearer is 25 times more protected than without any lens. LZAL200868 SHK/GRY 1/13

New Crizal Kids UV™
No-Glare lenses

Protect your kids' vision
and their eyes

Crizal kids uv™

Superior clarity of vision for school days

At school, kids' lenses encounter everything from fingerprints and harsh glare to scratches. All of these can affect vision and distract your child's learning.

Crizal Kids UV™ No-Glare lenses provide clear, comfortable vision in the classroom

- Reduce glare from fluorescent lights, whiteboards and computer screens to prevent tired eyes and headaches
- Smudge-resistant and easy to clean
- Durable and scratch-resistant

Superior safety for play days

At play, kids don't worry about their lenses! Whether they're playing sports, running, or just hanging around—kids are tough on their lenses.

Crizal Kids UV No-Glare lenses come standard with safe, shatterproof Airwear® polycarbonate lens material

- Protection against daily wear and tear
- Most impact-resistant lens material for active kids

Superior eye protection for every day

Because kids' eyes are not yet fully developed, they are more vulnerable to UV damage. When outdoors, they need protection every day, rain or shine.

Crizal Kids UV No-Glare lenses provide

- The most complete daily UV protection with an Eye-Sun Protection Factor (E-SPF®) of 25
- E-SPF® 25 means their eyes are 25 times more protected than without any lens
- Critical long-term eye health protection
